

ServiceBot
by WORKWAVE

Close More Sales 24/7/365

Make e-commerce easy with a customer-facing chatbot that lives on your website. Designed specifically for field service industries including lawn care, pest control, home services and more, ServiceBot is like having a salesperson that never sleeps, gets sick or takes a vacation.

How It Works

ServiceBot is a sales automation tool that works via an AI-enabled chatbot that lives on your company's website. When customers click on your ServiceBot, it guides them through the quote and sales process with a brief text-based chat, then offers them personalized recommendations and fast, seamless checkout.

Make Sales All the Time

ServiceBot helps you capture leads that you might otherwise lose by meeting your customers where they are, no matter when they're looking. They get the instant satisfaction of a quote right when they're thinking about buying, and you get the reward of the sale.

Automate Your Sales Process

ServiceBot automates many of the difficult, time-consuming parts of sales, including quickly responding to inbound leads, making sure each prospect gets a standard set of questions, recording contact information for every lead, and sending an instant proposal along with the ability to buy and pay right away. Our chatbot can even handle common sales objections.

Accurate Measurements for Accurate Estimates

With ServiceBot's innovative measur.it tool, customers are able to trace their own property with their fingertip or mouse. The bot then uses that measurement to generate a price quote.

Built-In Payments

ServiceBot lets you accept payments quickly and securely, then makes it easy and safe to retrieve customer payment data and integrate it into your existing payment processing solution.

Integrates With Your Software

ServiceBot currently integrates with Real Green's Service Assistant 5 and PestPac by WorkWave, with additional integrations on the way. When a lead engages with your ServiceBot, all of the information they share is captured and funneled into your CRM for your future use. No manual input necessary.

Key Features:

- ✓ Completely branded to your business – your customers will see you, not ServiceBot
- ✓ Real-time pricing tables to ensure the most accurate quotes
- ✓ Optimized for mobile users
- ✓ Safe, secure payment acceptance
- ✓ Detailed dashboard lets you see all of your sales and lead data in real time
- ✓ Generate great reviews with ReviewBot
- ✓ Enables sales across 25 different service categories
